TEN CENTS A WEEK

RETREAT OF HUNS IN WEST IS NEXT MOVE EXPECTED

Gains In Flanders and Along Aisne May Force Withdrawal

WAR DEPT. REVIEW SEES VITAL EVENTS IMPENDING

Italian Retreat Serious But Sec. Baker Believes It Will Soon End

Washington, Oct. 29.—Important developments are impending in the great war, Secretary Baker indicates in his official review of last week's operations on all fronts which concludes with the brief statement that certain units of the American forces in France have taken their places on the battlefield to complete their training. This is the war department's first mention of the fact that General Pershing's men are on the firing line.

It is the wave of activity during the week on nearly every front, however, that caught the secretary's attention. Significant operations are in progress, he says, both east and west on the Italian fronts, in Macedonia, Rumania, Mesopotamia, and even in East Africa. On the western front, he said, a new strategic retreat of the German forces appears to be the next move expected and they must move back under critical circumstances from between the two wings—those in Flanders and the Aisne—which have been driven relentlessly into their line by the British and the French.

Italy is passing through a different moment, Mr. Baker says. The Austro-German drive is being pressed forward by imposing forces. But once Italy stemmed the tide of an Austrian rush, under less favorable conditions for the defenders, he points out, and hurled the enemy back with only a taste of victory during the first days of his terrific onslaught. Winter is now coming to the aid of the Italians.

The secretary's review says in part: "The two outstanding features of the situation of the week are the relentless British offensive in the Ypres salient, resulting in substantial gains of terrain of important strategic value and the sudden well-aimed and sustained thrust of the French north of the Aisne. It is evident that the allied drives along the western front are broadening in scope and intensity. The whole front from the Houtholst wood through the Passchendaele ridge, southward to Lens and on to the Aisne, is becoming the seat of increasingly heavy allied pressure." AUSTRIA HOPES NEW VICTORY WILL HURRY "HONORABLE" PEACE

Zurich, Oct. 29.—Austrian hopes of a "speedy and honorable peace," has been raised by the Austro-German successes on the Italian front, the president of the reichsrath said in an address to the deputies, as quoted in Vienna dispatches. He admitted that there had been great anxiety in regard to Trieste, which now had been removed.

The report of the proceedings in parliament adds that the German and Polish deputies arose and cheered the emperor and the army, implying that the Czechs did not join in the demonstration.

The safety of Trieste seems to be the chief cause of rejoicing in Austria. The Neue Freie Presse of Vienna says, that ever since Italy declared war the monarchy has not ceased to be anxious for that city. It speculates as to whether British and French infantry will prove strong enough to prevent the collapse of Italy's war policy or whether the mass of the population, recognizing the seriousness of the situation will become convinced peace is necessary.

DRAFTED MAN KILLED BY TRAIN AT AKRON

Akron, O., Oct. 29.—Two men were ground to death under the wheels of a Baltimore and Ohio train here last night. Their bodies were mangled almost beyond recognition. From insurance papers and identification cards to report for entertainment with the next increment to be sent to Chillicothe, police were able to identify the men as John Mischakovich and Adam Kischak. Mischakovich recently came to Akron from East Pittsburgh, according to the family with whom he boarded. He was about 34 years of age. Kischak has been in Akron for several years.

BANK SHORTAGE \$182,000.
Chicago, Oct. 29.—The People's Building and Loan Association, oldest organization of its kind in Illinois, is in the hands of State Auditor Russell, who has appointed John S. Kowalski administrator. A shortage of \$182,000 is involved. The secretary, Harrison Kelley, died by drowning two weeks ago, and a corner's jury brought in a verdict of accident.

IS LABOR MAN ON DEFENCE COUNCIL

Hugh Frayne.

The labor representative on the council of national defense is Hugh Frayne, in peace time the chief organizer of the American Federation of Labor in New York and the official representative of Samuel Gompers in that city. He is a sheet metal worker by trade.

ALLIES TO RUSH AID TO ITALIANS ALONG FRONTIER

Petrograd, Oct. 29.—The Germans have evacuated the Werder peninsula on the Gulf of Riga, where they made a landing recently, the war office announces.

The announcement says Werder Manor has been burned and that provisions have been stolen. No fighting has taken place in the Gulf of Finland, but trawlers are active there.

New York, Oct. 29.—The powerful Austro-German advance which has been pressing through the foothills of the Julian Alps into the plains of northern Italy is being kept in check by the Italian forces which are faithfully fulfilling their duty, it is officially announced by the war office in Rome today.

London advises say the Italians will be given all possible aid and that steps already have been taken to this end. Presumably Italy's own reserves of men and guns have by this time been drawn up in notable volume and supplies hurried northward to reinforce the Italian armies in the great battle raging on the Friuli plain.

Berlin reports that 100,000 men and 700 big guns were captured. The fall of Gorizia is a serious menace to the Italian troops holding the Carso line southward to the head of the Adriatic, but General Cadorna still would be able to offer stout resistance on a line running through Trieste, Udine, Buttrio and Gradisca. The capture of Gradisca by the Teutons, however, would make a retreat from the Carso inevitable and also somewhat of a difficulty. The line of the Tagliamento river, it appears, would give the Italians the better natural position from which to hold the Germans from the Venetian plains and the over-running of northern Italy.

While the whole Isonzo line is in grave danger, there is also a serious threat in the Teuton drive to the Italian line in the Carnic Alps and even in the Dolomites north of Belluno. Apparently, Field Marshal von Mackensen is endeavoring to drive a wedge between the armies on the Carso front and those in the mountains northwest of Udine.

Operations carried out by the Belgians and French looking toward the elimination of Houtholst forest, north of Ypres, are progressing favorably. The entire Merckemo peninsula, south of Dixmude, has been captured by allied troops, who have also taken Merckemo and several other villages west of the forest.

The British hold the southern side of the forest and a continuation of the Belgio-French advance would make the German position untenable.

A German retreat from the Warneton and Dixmude to straighten out the line and eliminate the German military circles. One leading German critic—Major Morhart—says the front is untenable, and that the Germans will have to retire to a new one. Such a line probably will be run through Menin to Roulers to Thourout, and thence to the sea.

SHORTAGE OF MUNITIONS.

Washington, Oct. 29.—Lack of material, munitions and guns and unseasoned troops on the right wing in the fact of an overwhelming Austro-German force coming from the Russian borders are the causes assigned by technical experts of the Italian mission here for the Italian defeat in the Julian Alps.

There must be a reformation of the fighting lines, they say and a resumption of the Italian offensive cannot be expected before next spring, the campaign meanwhile being of necessity on defensive lines.

BIGELOW LASHED WITH HORSEWHIP ON NAKED BACK

Kidnaped at Newport and Taken to Hills Near Florence, Ky.

OFFERED PRAYER FOR KAISER AND HIS AIDS

Socialist and Pacifist Punished "In Name of Women and Children of Belgium"

Cincinnati, Oct. 29.—Herbert Bigelow, head of the People's church of this city, and one of the leaders of the People's Council, socialist and pacifist, was taken into a dense woods near Florence, Ky., shortly before midnight last night, tied to a tree and "horsewhipped" by men "who wore long robes and hoods," similar to those described as worn by the renowned "Kludd Klan," according to a report from Florence this morning. The report stated that the party with Bigelow as prisoner, gagged and handcuffed, worked its way to the center of the woods. Here they removed the handcuffs long enough to disrobe him and then tied him to a tree. One of the leaders of the party then read from a piece of paper he held in his hand with the light of a lantern held by one of his associates reflecting over his shoulder. The reader said:

"In the name of the poor women and children of Belgium this man should be whipped."

At a given signal another man, clad from head to foot in white, stepped out of a huge circle that had been formed, drew a long whip of the "blacksnake" kind and delivered 12 lashes upon the back of Bigelow. The ropes were then cut. Bigelow was warned to stay away from Cincinnati and he was released while the party made their way back to their waiting automobiles and disappeared.

Bigelow wandered in the woods and seeing a tall church spire in the distance he made his way there finding himself in Florence, Ky., about twenty miles from this city. He was taken to the home of Dr. H. K. Grant where he received medical attention and then according to his own statement he stayed up the remainder of the night writing in detail his experiences of the evening. It was not until late in the morning that he notified his friends in this city where he was.

Bigelow was taken into custody by five men as he was entering a hall of the city of Newport, Ky., shortly before 8 o'clock last night. He was scheduled to address a meeting of socialists. At the time of his apprehension handcuffs were put upon him and he was hurriedly thrust into a waiting automobile and spirited away.

Recently federal authorities conducted a raid on Bigelow's offices in Cincinnati, where documents concerning the activities of the local People's Council were seized. Sunday afternoon at his People's church services Bigelow prayed for "the repose of the soul of Emperor William and the proud men surrounding him."

Mr. Bigelow's own statement written last night at Florence, Ky., bears out the earlier story of the abduction and whipping. He added, however, that previous to his being taken into the woods he had been blindfolded and when the party aligned preparatory to going into the woods, a bag was thrown over his head and he had no idea of the fate that awaited him.

ALIENS INTERNEED FOR STARTING FALSE STORIES ABOUT WAR

New York, Oct. 29.—Government agents are bringing to account enemy aliens who circulated false stories concerning subjects connected with the country's prosecution of the war. It became known today that among the Germans recently interned at Ellis Island were several who were charged with giving circulation to such tales. That soldiers at nearby camps are committing suicide almost daily and that men in the national army commitments are undared were among the falsehoods these persons are alleged to have told.

Another is said to have invented a story of operations of German submarines off the eastern coast of the United States, information which he said, newspapers in this country were forbidden to publish.

CONSTANTINE SOUGHT TO BETRAY ALLIED TROOPS

Athens, Oct. 29.—Among the messages exchanged between the royal palaces at Athens and Berlin and which have fallen into the hands of the Greek government was one in which King Constantine urged Emperor William to attack the allies on the Balkan front, promising that Greek forces would attack General Sarrai's army in the rear. In another message Queen Sophie alluded to the allies as "infamous pigs."

FOOD CONSERVATION MOVEMENT IS GROWING FAST IN GEORGIA

Georgia's food conservation committee.

Every housewife in Georgia has registered for service in the nation-wide food conservation campaign now under way in that state just as every male of proper age has registered for service in the army. The names and addresses of housewives throughout the country are to be on file in Washington and every home will receive kitchen cards with instructions on preparing economical meals. Mrs. Samuel J. Inman, the one woman member of Georgia's executive committee, has pledged the support of every Georgia housewife in the new campaign.

COLORED DRAFT MEN GIVEN GOOD SEND-OFF TODAY

A splendid demonstration was accorded the seven "colored" soldiers who left for Camp Sherman at Chillicothe, this afternoon. It was participated in by both white and colored citizens and patriotic and fraternal societies.

A big parade was given which formed in front of the A. M. E. church in East Church street and was headed by the Buckeye band with Major-Dromo Robert Dold in full regalia. Grand Marshal Arthur Cunningham mounted on a fire-steed of black directed the parade and was in full charge. He was ably assisted by Baker Clare Cunningham, one of the drafted men and an officer in the colored Uniformed Rank K. of P. and who was also in charge of the drafted soldiers.

The faithful Old Guard, Co. B, in full uniform followed the band and then came in order the colored U. R. K. of P., a little colored boy representing Uncle Sam, colored Knight Templars, representatives of the blue lodge and the seven conscripted soldiers, Baker Cunningham, Virgil A. Freeman, Robert Jones, Charles B. Freeman, Alvin Fowler, Zealy Thomas and James Turner. The boys all wore strips across their breasts which read, "Helmet the Kaiser."

Next in line came the Rotary club, women carrying large American flags, colored school children with flags, women with babies in gossamer, colored citizens led by Jerry Coleman, carrying the national colors and a big delegation of young colored men of the city, many autos conveying both men and women followed. The line of march was around the public square to the south steps of the court house, where a large crowd gathered to hear the exercises. After a selection by the Buckeye band "America" was sung by the audience, the soldier boys occupying top steps and the others being taken by the Rotarians, colored choir, orators and officers.

Rev. Grover L. Hicks presided and introduced Rev. M. Robinson who made a few remarks and then invoked the blessing of Howard Jones was introduced and delivered a most pleasing address, paying tribute to the part taken by colored citizens in previous wars and telling of the splendid services they have rendered their country as members of the guard and regular army, and predicted that they would make good in the national army to which they have been assigned.

Rev. Chas. H. Stull, pastor of the Fifth Street Baptist church, gave a most excellent address and gave the soldier boys much good advice, admonishing them to always remain faithful and loyal to their country and to their God.

Mr. Cunningham in a well worded speech presented each one of the men with a vest pocket testament. C. H. Spencer presented each soldier with a service medal, telling the young soldiers that they were the gifts of the people of the whole country, who were thus pleased to honor them, and that they would always be a reminder of their friends "back home."

The parade reformed and went to the B. & O. depot where lunch boxes filled to overflowing with fried chicken and the good things that soldiers like were given each man. Then there was a box of fruit and candy and many things to cheer the boys up after they get to camp. Good byes were said, the boys boarded the train amid cheering and waving of flags, and the special headed for Columbus. It will arrive at Camp Sherman this evening at 7:35 o'clock and the boys will be assigned to a colored company, which will be a part of a colored regiment. At the A. M. E. church last night, a special service for the young men drawn for military service was conducted. The formal program opened with the singing of "America" by the assembled audience, and the opening invocation was impressively given by Rev. Mr. Jones. Then the old-time hymn, "Blessed Be the Tie

That Binds," was sung and a five-minute talk was given by Captain Charles P. Henry. He was followed by Carl D. Guy, who as a member of C. C. Licking Lodge, No. 62, also gave a short but interesting address.

Two other five-minute talks were given by Harry Toney, worthy master of Hamble Lodge, No. 41, F. & A. M., and Frank B. Norman, E. C. of Bethany Co. 24, K. T. Mrs. Mose Jasper sang a patriotic song number, and a short talk on behalf of the citizens was given by Rev. D. M. Guy. Music was furnished by a mixed-quartet, composed of Mr. and Mrs. D. M. Guy, Miss Dora Guy and Carl D. Guy, and Sergeant Baker Cunningham talked on behalf of the men of the new army.

Sergeant Baker was followed by Rev. G. T. Hicks, and the singing of the "Star-Spangled Banner" and the benediction, pronounced by Rev. Bene Roberson, concluded the program.

SWIFT'S SON-IN-LAW HELD BY IMMIGRATION DEPT.

Chicago, Oct. 29.—Further information in connection with the arrest a few days ago of Count James Minotto, son-in-law of Louis F. Swift, Chicago packer, on the technical charge that he was liable to become a public charge, when he entered this country, is expected to be obtained today by deposition in New York, according to officials of the bureau of immigration.

Minotto is at liberty on \$50,000 bonds, signed by his father-in-law. He issued a statement in which he disclaims acts of disloyalty to the United States, and declares all his dealings with Germans since the war has been purely in relation to the banking business in which he is engaged. He asserts he is an Italian citizen, and is so registered in Venice, admitting, however, that his mother is German. He was born in Berlin.

A place in the intelligence bureau of the navy department was sought recently by him, Minotto says, because he felt his knowledge of six languages would be useful to the United States.

Federal agents are said to be investigating the friendship existing between George von Seebek and Fritz Kuhn, two Germans arrested in New York and now interned as enemy aliens. All of the men formerly were employees of the Deutsches bank in Berlin and later in the London branch. Seebek was Minotto's best man at his wedding two years ago.

WANTED INTO NAVY.

Washington, Oct. 29.—Secretary Daniels stated today that the navy department's investigation of the attempt of Count James Minotto to get into the naval intelligence service had been a large contributor to the action for the count's deportation from the United States now being conducted in Chicago.

It was pointed out that as Minotto is an Italian subject and liable for military duty in Italy, he probably will be sent to Italy if deportation is ordered.

ENGLAND GIVEN ANOTHER BIG LOAN BY U. S. ALLY

Washington, Oct. 29.—Another advance of \$25,000,000 was made today by the government to Great Britain bringing the total loan that country thus far up to \$1,400,000,000 and the total to all the allies \$2,851,400,000.

Advances to the other allies now total as follows: France, \$10,000,000; Italy, \$25,000,000; Russia, \$225,000,000; Belgium, \$58,400,000; Serbia, \$2,000,000.

BERNSTORFF A GEHEIMRAT WHATEVER THAT IS

Amsterdam, Oct. 29.—Count von Bernstorff, the former German ambassador to the United States has been made a "wirklicher geheimrat" by the German emperor with the title of excellency. The count is now ambassador at Constantinople.

GERMANY OFFERS SEPARATE PEACE TO KING ALBERT

London, Oct. 29.—La Metropole, a Belgian newspaper published here, says a German attempt to separate the allies has been defeated by Baron de Broqueville, Belgian foreign minister.

According to this newspaper, Germany recently made a peace offer to Belgium.

La Metropole, says the bearer of the peace proposal was a Belgian industrial and financial magnate, who knew Foreign Minister De Broqueville personally. He went to Paris through Switzerland and asked for a meeting with the minister, who met him in a Paris hotel. The emissary there said he was commissioned by Baron von Der Lancken, legal adviser of the German government in Belgium, to propose that semi-official Belgian-French delegates should meet German delegates in Bern to lay down a basis for a lasting peace.

The following preliminary conditions were presented: Recognition of Belgian independence; indemnity for war expenses; reparation for war destruction, according to the Belgian common law; and convocation of a peace conference at Brussels under the presidency of King Albert.

Baron De Broqueville, the newspaper says, defeated this attempt to separate the allies.

ALLIES GIVE ITALY ALL AID POSSIBLE

London, Oct. 29.—The following article is printed conspicuously by the Times today: "There is reason to believe that the critical situation on the Italian front has arrived and is receiving the prompt and sympathetic consideration of the French and British governments. It is understood that the Italian commander-in-chief already knows that he may rely on the most prompt and fullest support it may be in the power of the allies to give."

GARFIELD TO TELL COUNTY COAL MEN HOW TO DO WORK

Columbus, Oct. 29.—Dr. Harry A. Garfield, federal fuel administrator of Washington, will be in Columbus tomorrow afternoon to attend a meeting of county coal committees to be held in the senate chamber, according to an announcement today by H. H. Johnson, federal fuel administrator for Ohio. Senator Pomeroy is also expected at the meeting.

Besides giving out information of a general nature regarding the coal situation, Administrator Garfield will instruct the local committees in their work. It is expected that every county in the state will be represented.

SUBMARINE TAKES AWAY ABANDONED U. S. VESSEL

London, Oct. 18.—The American sailing ship Fannie Prescott, 404 tons gross has been attacked by a submarine. She was taken in tow by the submarine after being abandoned by the crew.

JUDGE HUGHES DEAD.

Columbus, O., Oct. 29.—Judge Oliver H. Hughes, chairman of the Ohio Public Utilities Commission and adjutant general under the late Governor Patton, died in a hospital here at 10:45 o'clock last night. His death was due to the bursting of a blood vessel in his throat Saturday. Judge Hughes was 52 years old.

OFFICIAL TOTAL ON LIBERTY LOAN NOT AVAILABLE

Treasury Department Certain That Five Billion Mark Passed

NEW YORK ALONE TAKES NEARLY HALF OF ISSUE

Soldier at Camp Sheridan Buy Million and a Half of Bonds

Washington, Oct. 29.—Further figures showing Liberty Loan subscription totals, the treasury department announced today, will not be made public here until November 1. This decision was reached when it became apparent that the federal reserve banks would be unable to make more than approximate returns before that time.

There was nothing today at the treasury department on which to base an action of the grand total of subscriptions. It was assumed in the lack of reports that the banks were busy tabulating the totals, which rolled in by the agencies Thursday, the final day of the campaign. Official reassured their belief that the loan had passed \$5,000,000,000. Next Thursday is the last day on which to make returns. All subscription agencies, including the 26,000 banks in the country are required by the treasury to have their subscription lists and the two per cent. of subscriptions required with bond applications in the hands of the reserve banks not later than that date.

STILL TABULATING.

New York, Oct. 29.—Banks in the New York federal reserve district overwhelmed with the flood of last minute subscriptions to the second Liberty Loan, will be unable to tabulate complete returns until the middle of the week, it was stated today, but members of the loan committee reiterated their belief that the district's quota of a billion and a half dollars has been far exceeded. Estimates of the subscriptions range from \$1,700,000,000 to \$1,500,000,000.

SOLDIERS BUY HEAVILY.

Camp Sheridan, Ala., Oct. 29.—At least \$1,500,000 worth of Liberty bonds were sold to enlisted men and officers of Ohio army units here. It was officially estimated today. The closing hours of the campaign developed keen rivalry between the different regiments for the honor of leading the division with total subscriptions.

PLOTTED REVOLT IN INDIA; HUN AGENTS GET PRISON TERM

Chicago, Oct. 29.—Judge Landis in the United States district court here today imposed prison sentences and fines on the four men recently convicted of conspiring to foment rebellion in India.

Gustav H. Jacobson, leader of the conspiracy; Albert Wehde and George Paulboehm were sentenced to two years imprisonment and fined \$10,000 each. They are Germans. Heramba Lal Gupta, a Hindu, was sentenced to 18 months in prison and fined \$500. The sentences were pronounced after motions for a new trial had been denied.

NEW LIBERTY BONDS SELL ABOVE PAR VALUE

New York, Oct. 29.—The bonds of the second Liberty Loan were listed today on the market stock exchange here. The first transaction, \$1,500 worth, took place with the price at par. The second lot amounting to \$8,000 worth sold at 100.02.

TRANSPORT LOSSES OF ENGLAND ARE VERY LOW

London, Oct. 29.—In the house of commons today Premier Lloyd George said that since the beginning of the war 12,000,000 men had been transported with a loss of only 3,500 and that of these only 2,700 had been through enemy actions.

PETAIN AT CONFERENCE.

Paris, Oct. 29.—Before the meeting of the cabinet last evening to determine upon co-operation of the allies on the Italian front, Premier Painleve conferred with General Petain and General Foch, chief of staff of the war ministry, the Parisian says. The war committee met again this morning.

RETREAT OF HUNS IN WEST IS NEXT MOVE EXPECTED

(Continued from Page 1.)

which the enemy is withdrawing with difficulty.
"Side by side the French and British are pushing on through the Finnish lowlands toward Rostov."
"Slowly the allies are enlarging their gains in Flanders driving into the heart of German resistance in the west. The German armies fight on stubbornly. If any further evidence of allied superiority is needed, it seems to be supplied by the decisive successes won by the French during the week."
"This offensive was launched on a six-mile front near the west end of the Chemin des Dames at dawn on October 23."
"General Petain so well-masked his preparations that the enemy was taken by surprise as to the exact terrain chosen for the attack and was overwhelmed before being able to organize a concentrated resistance."
"The German lines were penetrated to a depth of well over two miles at one point."
"This first attack was immediately followed by a second assault in this same sector, crowned with full success."
"In three days fighting the French have taken 12,000 prisoners, 120 guns of large calibre, and a great quantity of other booty not yet enumerated."

"The possession of the captured fort of Malmesbury the key to the entire ridge and the village beyond, now makes it possible for the French to enfilade the German positions along the Chemin des Dames as well as to fire directly through the valley towards the fortress of Laon."

"The bad weather continues to be the enemy's best protection. He is relying upon this factor to impede the allied advance and by shrouding the battle area in slush, rain and fog give him respite until he can prepare himself to meet a fresh onslaught."

"News from the Italian front proves that the Austrians were able to bring sufficient pressure to bear in Berlin in order to secure German assistance."

"As the result of the concentration of an imposing array of artillery and massed battalions the Austro-German forces have succeeded in penetrating the recently won Italian positions in the Tolmino sector."

"The broken, steep mountainous character of the terrain makes it difficult to hold entrenchments when once certain strategic objectives have been attained. These Austrians have apparently captured in this sector enough ground which may result in the abandonment by the Italians of the Bainsizza plateau which they won after so valiant a struggle only a few weeks ago."

"Italy is passing through a difficult moment. We must remember, however, that in May, 1916, the Austrians attempted a similar onslaught. They had fine weather then, a well-chosen terrain, and above all, the far-superior fighting vigor of their armies to rely upon. At that time the Austrians won decided success during the initial days of the fighting and pressed on to the edge of the Italian plain only to be stopped and driven back."

"In the east, German operations in the vicinity of the islands at the mouth of the Finnish gulf were not carried through with serious losses both to men and material."

"The Russian resistance apparently is consolidating."

"The Germans, using the islands as a base have now gained a foothold over the adjacent mainland."

"The first landing on the Werder peninsula at the northern end of the Gulf of Riga was successfully carried out. A further attempt at another point failed."

"It is not probable that the Germans will undertake for the time being, more than a strengthening of the positions now held in the Riga sector."

"The retirement of the advanced enemy lines to a depth of 15 miles in the region of the Dvina is reported. Engagements of some magnitude are noted along the Rumanian and Macedonian fronts where artillery duels and raids are increasing in frequency. These, however, are not of more than local importance."

"In Mesopotamia the British are continuing and consolidating their advance, driving the enemy detachments out of important tactical points on the flanks—thus strengthening their whole line of defense."

"Rumors of an important move by the Turks, reinforced by certain picked German and Austrian units under the command of General Falkenhayn, which have repeatedly been reported throughout the near-east have as yet failed to materialize."

"The training of our troops in France progresses steadily and favorably."

"Certain units have taken their places in the front line trenches under actual battle conditions."

ALFONSO IN CONFERENCE ON HIS CABINET CRISIS

Madrid, Spain, Sunday, Oct. 28.—King Alfonso held conferences with various political leaders during the day but the solution of the cabinet crisis promises to consume several days.

It is not expected that the new cabinet will be announced before Tuesday as it is regarded as possible the king will seek opinions from the chiefs of all parties and groups.

Former Premier Maura, leader of the conservative party today sent the king a written memorandum in which he declares that the existing disorganization is due to long standing causes. He also says that whatever government is formed must "first restore discipline in the army. Senior Bertrana, former president of the conservative congress announced that the party, which continuing its allegiance to Premier Dato, is disposed to support any ministry chosen by the king."

WIFE OF GOVERNOR OF DELAWARE IS KILLED

Wilmington, Del., Oct. 29.—Governor John G. Townsend, Jr., was slightly injured and his wife is dead as the result of an automobile accident late Saturday night.

While returning to their home at Selbyville from Newark, where the governor was the speaker at the cornerstone laying of a new dormitory for the Woman's College, they encountered a storm, and suddenly a team loomed up ahead. The governor threw on the brakes of his motor car and it skidded, turning over twice.

The governor was thrown clear and not badly hurt. He removed his wife from beneath the car, but she died in a few minutes.

SAFE CONDUCT GRANTED TEUTON ENVOY BY ALLIES

Washington, Oct. 29.—Safe conduct for Count von Luxburg has been granted by the French and British governments and the former German diplomatic representative to Argentina will sail for Germany by way of New York very soon. The Argentine government requested this country to obtain permission for von Luxburg and arrangements have been made accordingly. It is not stated when Luxburg will sail, but it is understood he will take a Norwegian steamer.

ACCIDENT VICTIM GETS BIG SUM FOR INJURY

Cleveland, Oct. 29.—Andrew A. George, Burbank, O., was awarded a verdict of \$25,000 in common pleas court here today against the Cleveland Southwestern Railroad company. George had sued for \$75,000, claiming that his left leg is two inches shorter than his right, as a result of an accident on the railroad.

PREMIER ENLISTS WHEN FRIENDS JOIN THE ARMY

Eppie Premier, finding that he was lonesome without most of the boys with whom he had associated, and who are now in training at Camp Sherman, journeyed to camp last Thursday and sought to enlist.

His enlistment was accepted by the officers in charge and he is now located with his former Newark friends, in Battery B, 324th H. F. A.

AMERICAN AMBULANCE DRIVERS GET MEDALS

Paris, Oct. 29.—The war cross has been awarded the following Ambulance men for courage and daring in removing wounded under heavy shell fire during the recent operations around Hill No. 304 in the Verdun region: Charles F. Paxton, Pasadena, Cal.; Chas. B. Hall, New York City; Wm. Kenny, Leominster, Mass.; John L. Patton, Evanston, Ill.; Townsend Martin, New York City and Dr. Wm. D. F. Hughes, New Port, R. I.

TEXAS WRECK CLAIMS FIVE YET KILLED

Austin, Tex., Oct. 29.—Seven persons were killed in a rear end collision between M. K. and T. passenger train five miles south of Austin, according to reports received here and which have not yet been confirmed.

location or the direction in which he was being led.

He also states that oil was poured over his head after the lashes were administered.

In a statement issued this morning Bigelow stated that owing to the men "wearing long white robes" he was unable to recognize any of his abductors. He stated that he did not know the men who seized him in front of the hall in Newport, but at the time asked where he was to be taken and received the answer: "To headquarters."

He says that owing to the darkness he was unable to give an accurate guess as to how many made up the party, but residents along the Lexington pike state that they noticed a line of 22 automobiles pass on the way to Florence, Ky., last night, some of which were crowded and carrying men upon the running board of the cars.

Mr. Bigelow in his statement said that he was under the impression that he was being arrested by government secret service men and that he made no resistance but trusted to the United States courts to prove his innocence of any wrong doing. He added that any resistance on his part he thought would bring trouble upon his numerous friends who were all around him at the time he was abducted.

Bigelow was Democratic candidate for secretary of state of Ohio some years ago and later was a delegate from Hamilton county to the constitutional convention in 1912. He was elected by the convention as its president. For the last several years, however, he has been actively associated with the socialist party.

Bigelow was removed to a hospital in this city shortly after his arrival here from Florence this morning. His friends issued a statement that he is not believed he is in a serious condition.

Mr. Bigelow in a signed statement issued to the press today, written last night, says in part:

"An experience of this kind shakes one's faith in the doctrine of non-resistance. It has converted me at least temporarily to the gospel of preparedness."

"As these chivalrous gentlemen have notified me to leave Cincinnati in 36 hours, I am going to apply both to the municipal and federal government for their protection."

"Two men were left to guard me. One pointed a revolver at me and ordered me to sit down on the cover of the cistern."

"I asked him in what direction was home and how far away it was. He pointed in the direction in which we had come and said it was quite a distance."

"He told me that I should inquire my way at a certain barnhouse, the first on the right."

"After he left, I began to speculate on why they put oil on my head. The only theory that seemed reasonable was that it was intended for identification later."

"I concluded that others might be waiting at that house to do a deed which the big crowd couldn't be trusted to witness and that the oil was put on to make sure that the wrong man would not be assassinated."

"So I decided to go in the other direction."

"I had walked about two hours when first one machine and then another came up in my rear. I eluded both of them once, I stepped into a field of standing corn. The second machine I escaped by climbing over a bridge and dropping down on a railroad track."

"I knew I was walking in the direction of Erlanger as I inquired my way of a couple in a buggy. I saw that was evidently the steeple of a Catholic church and determined to go to the house of the priest. While looking for this house I saw the sign of Dr. Grant in Florence, better known as 'Stringtown on the Pike,' and I knocked and the door of a good Samaritan was opened unto me."

"I want the kaiser sent the way that Nicholas Romanoff went. I desire nothing in all the world so much as to see the achievement of all war aims which President Wilson announced in his address of January 22."

LONGING FOR A CHILD

Young Wife Almost in Despair. Now has Beautiful Baby Girl.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. Lydia E. Pinkham's Vegetable Compound has brought joy to many childless women by restoring them to normal health. Here is a notable case.

Omaha, Neb.—"I suffered from female troubles when I was seventeen years old. At eighteen I was married and my trouble was no better so I consulted a physician who said that there was not much I could do and I could not have children. I read of Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has proved worth its weight in gold to me for I am not only well but have a baby girl, so I will tell her of Lydia E. Pinkham's Vegetable Compound."—Mrs. V. H. Hughes, 19 Majestic Apts., Omaha, Neb.

In many other homes, once childless, there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

HARVEY J. ALEXANDER
FOR CITY SOLICITOR

Mr. Voter:
Stop and think before you cast your ballot for City Solicitor.

This office requires a man who has had experience in municipal affairs. One who has the interests of the whole people at heart. One who will keep a keen eye on the propositions come up that are of vital interest to the people and such propositions are always coming up.

This is a serious matter. Do not vote for me or any other man, just because you might think that he is, or I am, a "good fellow." A servant of the people should be more than that.

I am asking your support because I feel absolutely confident that I can fill the position. I have practiced law in Newark for almost six years. I have watched the progress of the city for the past twenty years. I was born here; brought up here, and am no stranger in the city. I have made a special study of municipal law, and have had experience in municipal affairs. Investigate my record in the council and you will find that I have always stood for the interests of the PEOPLE OF NEWARK.

I have been criticized by a few because I opposed an increase in the gas-rate; I have been criticized by a few because I opposed a division of the gas cessy fund, which division of the fund would have lost the city almost \$150,000. I have been criticized by a few because I opposed the method of certain law distribution. I have been criticized by a few because I have always tried to spend the city's money economically.

In answer to these critics I can only say that I am not serving the few, but the people of Newark as a whole. I have been accused of being radical at times. I am radical at all times. In favor of the wage-earner and his family, and don't anyone forget it. I know what the workingman is up against.

Believing that the voters of Newark are entitled to know where a man stands, I make this statement over my own signature.

If you want a man who will conscientiously serve the people, I ask your support.

PROHIBITION
HOW THEY LIKE IT WHERE THEY HAVE IT

STATE OF WASHINGTON
Office of Governor
OLYMPIA
January 27, 1917.

Mr. G. C. Barber, Newark, Ohio.
Dear Sir:—

I have at hand your letter of the 22nd instant, wherein you ask an expression from me regarding prohibition in the State of Washington.

Replying I desire to say that saloons in the State of Washington were closed on January 1st, 1916, under the provisions of a law enacted by the people at the General Election held in November, 1914. It would be too much to say that there have been no violations of the law. I am confident, however, that should the law be again submitted to the people, it would be enacted by an even larger majority than was given to it in 1914. Two measures which would have virtually nullified the law were submitted to the people at the General Election held last November. The fact that these two measures were overwhelmingly defeated, indicates the sentiment of the majority of the people of the State. There is no doubt but that the State of Washington is far better off in every respect without saloons, than it was when saloons were in operation.

Yours very truly,
ERNEST LISTER, Governor of Washington.

AMUSEMENTS

AUDITORIUM.
"The Countess Charming," the pleasure of introducing to Newark picture fans, the first three days, commencing today, a new movie star Julian Eltinge has been the sensational novelty of the speaking stage for a decade or more. His impersonation of women has attracted more admiring comment than anything the stage of America or Great Britain has seen. After a sensational success in roles that his fellow performers could not touch, Eltinge has answered the call of the silent drama. He will be seen at the Auditorium today, tomorrow and Wednesday in his initial picture, "The Countess Charming."

He has the role of Saunders Julian, a wealthy young business man, in love with Betty Lovings, a beautiful daughter of a social climber of a mother. They meet at a Red Cross gathering at a country club. Julian offends the leader of the country club, Mrs. Samuel Vandergift, and she and her husband plot to out the offending man from society. Julian, who has promised Betty to secure a large donation for the Red Cross, decides to avenge himself on the "400" leaders and to get the Red Cross money at the same time. His ability to impersonate the gentler sex and a large wardrobe of feminine togs which he has used in an amateur theatrical performance, enables him to proceed.

"Roping Her Romeo," a heavy, as everyone knows, is a deep-dyed villain—that is, on the stage

boost the sale of Liberty bonds, many buying themselves. "Klaw & Brangler of New York bought \$50,000 worth. Cohen & Harris bought one block of \$100,000. The Chicago White Sox bought \$100,000, and our own little Mgr. Fenberg didn't do so bad. He certainly has done his little bit."

The Hearst-Pathe News today shows interesting plays of the two early games in New York, in which New York defeated the Chicago White Sox in the world series. Other current events show the way the ocean lanes, also the overhauling of a German ship after three years of internment. His patriotic pageant at Omaha marks the feature of Ak-Sar-Ben carnival at Omaha and other events. This feature is seen today only.

"Very Good Eddie," the show that made Eddie the last season, only this is the original company with a New York cast and production, will be seen at the Auditorium soon.

LYRIC.

Lyons American Maids will open their engagement this afternoon at the Lyric theater.

This company comes highly recommended and consists of 11 clever performers. Title of opening bill, "Battle of the Brandywine," a very funny farce offered for laughing purposes only. Presenting Rube Ferns, Chas. Davis and Y. A. Lyons in the characters of the new recruits.

Ruby Davis, coon shouting soubrette in the last "New York successes. And Gartner and McLaughlin, a duo featuring "Hick-a-Boo-a-Boo," Miss

"Mutt and Jeff Divorced," at The Auditorium Saturday, Matinee and Night.

or screen. In real life most of them are quite the contrary. A Slim Summerville, he of Mack Sennett fame, who is now appearing in Paramount-Sennett comedies, weighs 160 pounds at exactly 85 pounds and two ounces. He insists on the two ounces. This comedy yesterday drew forth laugh after laugh and will be held over today as an extra added feature, being shown with the big Paramount feature, "The Countess Charming" and the Hearst-Pathe News.

Auditorium Notes.
Newark picture fans see the best in film here practically as soon as the cities elsewhere this week at the Colonial in Columbus. "The Countess Charming" with Julian Eltinge is showing—this feature is at the Auditorium for three days commencing today. There is "The Lone Wolf," one of Herbert Brenon's masterpieces, who is known as the "Daughter of Neptune's Daughter." "The Daughter of Neptune's Daughter," and numerous others. In "The Lone Wolf" by Louis Joseph Wolf, we have a dramatic offering, said to be one of the most thrilling screen stories so far put on the screen. Robert Warwick is "The Lone Wolf," by E. Phillips Oppenheim, comes to Newark soon. This is said to be one of the Selznick productions that is worth while.

A funny situation exists in Chicago—whenever a picture by Bryant Washburn is put on the screen in that city, he is hissed. This is owing to the fact that he was given exemption by the draft board of that city on the reason that his wife was dependent on him—she is a movie actress also drawing a large salary. Owing to this and many other little jobs the newspapers of that city gave him, he has moved to Los Angeles, Cal. It is said that the government at Washington may take up his exemption and he may have to serve yet.

Charlie Chaplin, who has signed to produce pictures for the National Exhibitors Co. offers a prize of \$100 for the best name for his company. The decision must be made before Dec. 1. Suggestions forwarded to John Jasper, Charles Chaplin Co., Hollywood, Cal. will receive consideration.

The new theater tax goes into effect Nov. 1. Mgr. Fenberg of the Auditorium mentions this fact in all his advertisements starting today.

Quite a nice sum was realized for the boys in camp at Monterey, Ala., yesterday at the Auditorium. A collection was taken after a speech by Mr. Hamilton.

The show folks generally throughout the entire United States did a lot to

Pauline Davis, lyric soprano, in the ever popular, "Someday, Somewhere, a Voice is Calling." A beauty chorus of pretty girls, clever dancers with beautiful costumes.

ALHAMBRA.

Tonight and Tomorrow. Miss Gail Kane declared her faith in the new Mutual-American photodrama, "The Bride's Silence," a production that offered the young star full opportunity to display her splendid emotional genius.

When the play was first shown to Miss Kane she declared her faith in its success as a picture drama to the delight of Director King, who had picked "The Bride's Silence" as the first class medium for the expression of her talent.

Wednesday and Thursday.
Ethel Clayton is the star in the newest World-Picture, Brady-Made, "The Woman Beneath," which will be the attraction at the Alhambra Wednesday and Thursday. This production is a particularly unusual offering. It tells of the way that a young society debutante marries a wealthy woman's mine owner. She later tells her husband that she does not love him, that she simply made a good match.

GRAND.

For plain, every day American resourcefulness you'll have to hand the palm to Richard. He saw a girl in a London chop house and in his pursuit of her there was never a moment that he wasn't up to his ears in adventure of the most thrilling description. The girl had her share, too. If you want to sit on the edge of your seats and laugh and gasp with excitement just come and follow Alice Joyce and Harry Morey in "Richard the Brazen" at the Grand tonight and tomorrow.

Don't put on the roof until you investigate

It is poor economy to save money by substituting something inferior, but wouldn't you like to save on cost if you could get something better? You can get a better roof for less money if you put on

Certain-teed Roofing

Before its merits were recognized, roll roofing was regarded as a more or less temporary roof—but now CERTAIN-TEED has demonstrated that it is not only a most durable roof, but also the most efficient roof.

It is economical to buy, inexpensive to lay and costs practically nothing to maintain. It is light weight, clean, sanitary, fire-retardant and weather-tight.

It is used now as the preferable type of roof for office buildings, factories, hotels, stores, warehouses, garages, farm buildings etc., where durability is demanded. CERTAIN-TEED is guaranteed for 5, 10 or 15 years, according to thickness (1, 2 or 3 ply).

There are many roll roofings on the market, but only one CERTAIN-TEED. It pays to get the best. It costs no more to lay a CERTAIN-TEED roof than it does to lay a poor roof, but there is a vast difference in the wear. You can't tell the quality of a roofing by looks or feel. Your only safety is the label. Be sure that it is CERTAIN-TEED—then you are certain of quality and guaranteed satisfaction.

LICKING'S RECORD.

At least eight million persons by subscribing for United States government bonds have made the second Liberty loan of 1917 an overwhelming success. More than five billion dollars have been subscribed. The people opened their purses and bought bonds far in excess of the loan goal, a perfect avalanche of orders swamping the bankers on the closing day of the great campaign.

The people of Licking county responded nobly to the call, oversubscribing in a substantial sum the million-dollar allotment for the county.

Thus far old Licking has a fine war record. More than 600 of her sons are now in United States uniforms. Some are in France, others in the training camps throughout the country or on shipboard. The county oversubscribed its quota of the first Liberty loan, greatly oversubscribed its Red Cross allotment, quickly raised its share of the Y. M. C. A. war fund, and readily gave money with which to buy service medals for the Licking county boys and to defray the expense of celebrations given in honor of their departure for the training camps.

While the county can congratulate itself upon oversubscribing its share of Liberty loan, it does not deserve special credit for the people only did their duty. Furthermore, one doesn't deserve great praise for an act which greatly benefits himself. A contribution to the Red Cross or the Y. M. C. A. is an outright gift and a truly patriotic act, but the purchase of a United States bond is an investment—the safest and best investment in the world today. If a United States bond is not absolutely good and perfectly safe, then one's money and his property are worthless.

The way the people of this community have responded to their country's call shows that they will back to the limit the boys who have gone or who are going to the front. And we are just beginning to open our pocketbooks. Soon there will come another appeal for Y. M. C. A. war funds and Licking county will be asked to give \$40,000 towards the \$35,000,000 fund with which to carry on the work in the army camps. Later there will be another Red Cross campaign, and then will come another Liberty bond issue, and so on until German autocracy is crushed.

The Kaiser will learn soon, if he

OUR AVIATION DIVISION.

(By D. Eugene Swope.)
Under the present world conditions every bug and worm that ate of our growing food last summer, was fighting for Germany—every one that will eat of our growing food next summer, is a friend to autocracy, and a foe to democracy.

These creeping, crawling, hopping, pro-German devastators, co-operating with submarines and firebugs might have inconvenienced us somewhat, just now, had not our many million volunteer army of wild birds, our natural aviation division, waged a forceful summer campaign against these friends of the Fatherland and thereby saved us some billions of dollars worth of food.

The vigorous nation-wide interest in the production of food last summer, emphasized the reasons for encouraging the help of the wild birds as guardians of our crops, against this gnawing, biting, destructive enemy in our midst. The result is that there is now a wider interest in bird-protection than ever before—for there is a greater need than ever before.

THE ALIEN'S BANKER.

In his weekly review, Henry C. New York financier, after referring to the success of the Liberty loan campaign says:

The United States has virtually become banker for the allies, the responsibilities and strain of which must be squarely shouldered for months to come. While these abnormal demands will temporarily defer new capital obligations, they will on the other hand infuse fresh vigor into all industries necessary for conduct of the war. The bulk of this vast loan will be spent in the United States, loans to the allies being largely expended here for munitions, etc. This means continued activity in spots. Our country is keenly exerting its "volcanic energy," as Lloyd George aptly terms it, for prosecution of the war. Time is necessary for development of the power to crush militarism; a power which we possess and which we have already pledged. We have double the population and resources of Great Britain, which is at present being the brunt of the war; and unless German military rulers are blindly bent on national suicide, they should awake to what will happen when our full might and resources are beating hard against them. Peace rumors continue rising to the surface, having their origin chiefly in the reports of internal disquiet in Germany. Such rumors should not be taken too seriously, since evident is the put out for diplomatic effect and to asphyxiate American energy, if that be possible.

WHO OPPOSES THE DRAFT?

(New York World.)
Complaint against the selective draft continues in many places, and as a new levy approaches it will increase, in spite of the law which makes open resistance a crime. Aside from the very few conscripted men who have manifested their unwillingness to serve, opposition does not proceed from those of military age. Testimony from all of the national army camps is to the same effect—that the men chosen are in the main enthusiastic for service and that such as have been found unfit have gone home in sorrow and humiliation.

If the young men called for duty are not offering objections, what element of the population is it that complains and resists? First, there are the so-called pacifists, domestic and alien, disliking war of every kind, as they say, and especially war against Germany. Then we have the international Socialists who dream of a love-feast of the proletariat which their dear brethren in the Fatherland have done nothing to promote. After them come the politicians who adhere to the Prussian belief that the German reservists here are numerous enough to outvote the Americans, and finally we have a handful of college professors and hysterical women.

THE FIGHTING MONEY.

(Ohio State Journal.)
Much of the money raised by tax and bond goes to the allies, who are doing the fighting. There is where the great need arises and the great victories they are winning come from our loans to them. In the dreadful crisis they need money to buy munitions and supplies, and nearly every dollar expended for these necessities come right back to this country in the purchases the allies make with the money we loan them. It is the greatest instance of reciprocity ever devised. The allies are supported in the bloodiest struggle while this country is getting its boys ready to help them. If it wasn't for America's aid, France and England would not be able to stand the test. Every dollar we loan them is a dollar spent for humanity. It is for the defense of this country as well as for themselves. It is the dollar we furnish that supports the allies in their sacrifice. This country will soon be with them to make good their victories.

The people who seem to get a lot of satisfaction out of being on the losing side are those who can say: "I told you so."

Uncle Will in Town.
Aunt Caline says:—Uncle Will B. Fuller went up to Newark last week on a kind of vacation, him never having seen the place.

He saw the Arcade or nothing up there. So he looked him up a good hotel to stop at the first thing an' he got him a nice place at Mr. Walters'.
Soon as that was settled, he went over to Kuster's an' says he, "What time do you eat here?"
He then says, "Well," says Mr. Kuster, "we have breakfast from six to eleven, lunch from eleven to three, an' dinner from three to eight." "Oooh, whiz!" says Uncle Will, "You do eat a lot, don't you? Now how inarnation am I a-goin' to git time to see the sites o' this town?" he says.

JUNK FOR JUNKERS.

(New York Evening Post.)
So rarely comes good news out of Germany that, when it does, all the world should be notified. The Germans are said to be melting down their bronze statues for use in munition work. Now, a 42-centimetre shell is not a thing of beauty as it advances whining through the air at you. On the other hand, neither is that monstrous Germania of the flowing brazen locks. Given the choice of one or the other, hypersensitive souls, delicate flowers of art, might prefer the filler of tombs. The Hohenzollern empire has, since 1870, been accumulating a most unutterable lot of rubbish. Berlin is the center of this vast museum of ugliness, of art made to order, of a people conscripted into the army of aestheticism. But now it will be necessary for the allies to invade Germany and capture Berlin. The Germans even if they refuse to turn democratic, are at least complying with the dictates of good taste and purifying their capital. The flopping figure on top of the lofty victory-asparagus in the Konigsplatz must now come down, and all the other eyesores of perennial bronze will vanish as well, like mist in the sun.

Unfortunately Prussia needs no granite as yet in the munitions industry. Redhot stone cannon-balls have gone out since old Fritz's day. Therefore the famous granite quarry of the Sieles Alle and the worst of the Charlottenburg mansion must await some other destroying hand.

Spirit of the Press

Shipping.
The submarine did better last week than they have been doing, upon any day. Then we have the international Socialists who dream of a love-feast of the proletariat which their dear brethren in the Fatherland have done nothing to promote. After them come the politicians who adhere to the Prussian belief that the German reservists here are numerous enough to outvote the Americans, and finally we have a handful of college professors and hysterical women.

Whenever we find antagonism to the draft we encounter an enemy, a demagogue, a sentimentalist or a deserter. Practically all of the young men selected are first and last for the United States. Practically all who discourage them and disapprove of the methods by which they were chosen are against the United States. The Kaiser has no more dependable reservists anywhere.

Fair Profit in Bacon.
Canadian bacon is admittedly a fine product, but a Canadian commission that has just finished hearings in Toronto is doubtful that it should be such a remarkable price as the British War Office has been paying since 1914. Some of the facts developed by the commission may not be without bearing in this country. The William Davies company began business in 1892 with a capital of \$250,000, and it was established at the hearing that that has been all the money put into it since, except what has been derived from profits. It now has a capital of \$2,000,000, and counsel for the Crown developed that the profits for 1916 and 1917 had been \$3,400,000.—Rochester Democrat and Chronicle.

Drink Among Soldiers.
The Army regulation protecting soldiers against booze is everywhere having a salutary effect. Speaking of the soldiers of the Rainbow Division (Camp Mills), we are told that after leaving camp on a pass they return free from the sad effects of liquor. A paragraph from an account of their behavior at Camp Mills says, "Unconscious women can be anywhere in the vicinity of Camp Mills after dark without fear of insult. The magistrates of surrounding towns and villages have not to report the case of a single soldier whom a woman has complained." There is fine testimony of what "bone dry" prohibition will do for

That the expression "stool of repentance" is the name given in Scotland to a low stool placed conspicuously in front of the pulpit in churches? Persons who have become subject to ecclesiastical discipline for immoral conduct are required to sit on these stools during public worship in profession of their penitence. the soldier. It makes a true man of it. It gives him a moral quality that lifts him above the very meanest of life. And that is what "bone dry" prohibition will do for a whole community.—Ohio State Journal.

It Was Only \$3 a Day.
The average citizen of the United States this year owes at least a thought of appreciation to the farm hand who stood by his rake and his plow and refused the lure of higher wages in the cities and larger towns. There was surely something besides selfishness in the motives that caused these men to work, in many cases, from 12 to 14 hours for a wage of \$3 a day, when unskilled labor was bringing \$5 for an eight-hour day within 12 hours' ride from the average Eastern farm. Not only have the farm hands helped to sow and cultivate, but thousands of them are still at work on the soil, gathering a record harvest. One seldom hears of strikes among farm hands, yet few laborers work so long and so energetically as do they.—Christian Science Monitor.

The sort of disaster at sea we prefer to read about is the kind that happens to those German naval captains when their crews fly off the handle and see how far they can fling 'em out into the cold, damp sea.—Macon Telegraph.

Dr. Garfield warns the coal mine strikers that fuel must be produced. It is evident, however, that the Kaiser has countermanded Dr. Garfield's orders.—Rochester Herald.

According to Wilhelm, Turkey will join Germany in culture after the war. This looks worse than ever for the Armenians.—Washington Post.

The fact that the German Government has found it advisable to start a "campaign of enlightenment" among the soldiers suggests that the old habit of "thinking by platitudes" has fallen somewhat into disuse.—Chicago Herald.

NEW SKIN PLEER IN GREAT DEMAND

Since the discovery that mercurized wax is permeable to the skin, the demand for it as a complexion renewer has been tremendous. Druggists in every section report sales far exceeding those of any thing similar they have ever had on their shelves.
Ordinary mercurized wax gently soaks off the dead skin cells, in minute particles, so that the user gradually loses her old worn-out complexion. The new skin pleer, on the other hand, takes its place. Cutaneous eruptions, blotches, moths, patches, freckles, spots and freckles are of course removed at the same time. As the wax is entirely harmless, and easy to use, women all over the country are purchasing it in original packages and using it to quickly rejuvenate their complexions. The wax is applied the same as cold cream, allowed to remain on over night, then washed off with warm water.—Adv.

"The Store of Newark—Where Quality and Service Count"

25 Years Ago

(From Advocate, Oct. 29, 1892.)
Will Sheridan of Stanford, Ky., is visiting his mother Mrs. Bernard Sheridan of Morris street.

Mr. A. P. Taylor returned home Saturday from San Francisco, Cal., where he has been visiting his son, W. L. Taylor.

The Licking Cycling Club will soon be occupying their quarters in the Davidson property on East Church street.

The incorporators for the Newark and Granville Electric Light company are R. Scheidler, F. A. Crane, Herbert Abington, E. D. Miller, Wm. C. Christian and W. E. Miller.

The friends and neighbors of Miss Anna Bousch gave her a surprise at her home on Poplar avenue last evening it being her birthday.
Miss Rose Wilson of Race street has as her guests Miss Rose Stubbs and Mrs. Will Search of Zanesville.

15 YEARS AGO.
(From Advocate, Oct. 29, 1902.)
There will be a lecture by Denton C. Crowl, boy orator at Taylor hall, next Sunday evening.

Mrs. S. O. Bentley is ill at her home on North Fourth street.
Alfred Ankele, the five-year-old son of John Ankele of West Church street, fell yesterday on a rake, cutting a deep gash in his chin.

Sadie Utrevis, Ella Diehl, Grace Egan and Pearl Sheppard, spent Tuesday evening with Miss Emma Doty in Mt. Vernon.

General Manager J. R. Harrigan of the Columbus, Buckeye Lake and Newark Traction company, reports that active work on the proposed traction line between Newark and Zanesville will soon commence as the rails are being received every day.

The State War Board Today Says

To the loyal households of Ohio: A representative of the United States Food Administration will call upon you this week. Thousands of patriotic men and women have volunteered for this service.
You will be asked to sign the United States Food Administration's pledge card which enrolls you in the army of patriotic households that have agreed to "serve by saving."

When you have signed the pledge card you will receive a "home card" telling what you can do to help win the war and also a window card which should be displayed in every patriotic home in the United States. This war is about the biggest proposition your country ever tackled. Hundreds of thousands of young men have been called to the colors and are willing to sacrifice their lives in the cause.
Perhaps your home has a boy at the front. If it has you will want to back him up. Put your home on the "fighting line" by signing the pledge cards and saving food for our soldiers.

Our Boys and Girls

A rosebud carriage strap of elastic covered with shirred satin in the baby's chosen color, trimmed with ribbon rosebuds and hung with dainty toys, is a gift that will make the wee one crow with delight. The playthings may consist of a rubber dolly, a celluloid rattle and a tiny dog, and are fastened to the strap by a narrow ribbon about ten inches long, not too long or the toys will need frequent finding. A waste-paper basket should be part of the nursery belongings and the children should be taught to use it for its proper purpose. The habit should be formed of putting into it scraps of paper and other rubbish which would otherwise litter the floor. This will save the mother needless work and will also teach the young ones themselves to keep the room tidy.

"True affection," says the Manzanita Philosopher, "is the privilege of saying disagreeable things to those we love."

OBITUARY

Miss Jennie Hazlett.

Dr. C. G. Hazlett of the First Presbyterian church, received a message this morning informing him of the death of his oldest sister, Miss Jennie Hazlett, matron of the Baptist Home for Aged People, Pittsburg. Dr. and Mrs. Hazlett leave this evening for Latrobe, Pa., where the funeral will take place Tuesday.

Mrs. Wm. M. Miller.
Announcement is made of the death of Sadie Evelyn Waller Miller, wife of William M. Miller at the family home in Dresden on Saturday October 27. Mrs. Miller formerly resided in Granville.
She is survived by her husband and one son, William Victor Miller of Battery A, 136th U. S. artillery, now at Camp Sheridan, Montgomery. The funeral services will be held

at the Dresden M. E. church at 2:15 o'clock Tuesday afternoon, Oct. 30.

Mrs. Agnes Silivanski.
The body of Mrs. Agnes Silivanski, who died in a hospital in Columbus, following an illness of nineteen months of tuberculosis was brought to the parlors of Criss Brothers Monday morning.

The funeral services will be held on Tuesday morning at St. Francis de Sales church at 8 o'clock and interment will be made in Cedar Hill cemetery.

Milady's Boudoir

The Hair.

One's complexion is not the only detail that must be perfected before a woman can lay claim to charm, for going hand-in-hand with it is the hair. Hair to be beautiful must be clean and nourished. While it usually has enough natural oil, it is often robbed of it by the manner in which the hair dresser shampoos and dries it and also by the tonics used, the greater part of them containing wood alcohol, which literally takes all the oil out of the hair and burns it up.

A woman with scanty hair does not hesitate about shampooing it at home for it is easily dried, but one with a heavy head of hair dreads the task. A simple means by which the drying of the hair is easily and quickly accomplished is to use a straw hat with the crown removed, of any size or dimensions. After the shampoo remove the greater part of the water from the hair by rubbing with a towel, then lay the hair through the crown of the hat, spread the hat on the head and spread the hair out around the brim to dry.

Dandruff is the worst enemy of the hair. Frequent shampooing is a necessity but, as this is too drying for a head of hair which is not naturally oily, the hair should be given a small dose of oil after each shampoo.

An easy way to accomplish this is to wet the hair with a 70 per cent solution of alcohol to which some castor oil has been added, four teaspoons of castor oil to one pint of alcohol. The alcohol carries the oil to all parts of the scalp and then evaporates, leaving it intact. A ten minute massage should be given every night. Place the tips of the fingers on the scalp and, without moving them, rotate the scalp on the skull. Then move the fingers to another part of the scalp and repeat.

Every Day Etiquette

"Should a person drink to one's own health when a friend proposes a toast, and which hand is the proper one to hold the glass?" asked Evelyn.

"When a toast is proposed all the guests rise, but the one to whom the toast is proposed remains seated and does not drink with the rest. The glass should be held in the right hand," said her brother.

ENGLAND MUST AID ITALY IS OPINION OF LONDON EDITORS

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 29.—That Great Britain and France must go promptly to Italy's help is the view expressed by several morning papers. The Times prints a statement, implying knowledge that such help is contemplated and says editorially: "Our word to the people of Italy is to stand firm for help will surely come. . . . Italy must not and will not be deprived of the fruits of the ultimate victory for which she has battled so long and so ardently. In the truest sense the Isonzo is our front as much as the Somme and now that it has collapsed we must do our utmost without delay to repair it. There is no need for alarm but there is the most need for promptitude and broadness of vision."

The Daily Chronicle, taking a similar view says it ought to be possible to have British or French divisions or both in northern Italy in a very short time. The Daily News on the other hand while holding it incumbent on the allies to consider how best to succor Italy, thinks it is impossible to send direct relief to the scale the situation demands.

While all the newspapers recognize the gravity of Italy's peril strong coincidence is expressed in general Cadrona and the Italian army with the conviction that they ultimately will emerge victorious. Italian perseverance and successes of the past are recalled with warm admiration and the weakness of some links in the defensive chain is condoned. The Times says: "The troops so suddenly and fiercely tried may well have blanchied. The gallant Italian army has proved its courage and devotion so often in this war that a single unfortunate episode leaves no stain on its honor."

AMERICAN TROOPS IN TRENCHES WILL ASSURE VICTORY

(ASSOCIATED PRESS TELEGRAM)

London, Oct. 29.—The entrance of units of the American army into active service on the western front, although overshadowed as a news item by the Austro-German invasion of Italy, receives prominent notice in the newspapers as a much more than picturesque event.

The Daily News says: "It would be idle, presumably, to expect Germany in the intoxication of her Italian victory to appreciate its full meaning. This does not alter the facts, either immediate or prospective. . . . Germany has called in the new world to redress the balance of the old. The balance will be redressed."

The Daily Express remarking on American energy says it bodes ill for Germany and gives added certainty that victory, however long delayed, is assured. It warns that this does not justify a relaxation of their efforts.

The Graphic says: "The descendants of the embattled farmers of Concord have fired a shot, which like that of the minute men, will be heard round the world. . . . The advent of the United States has more than made up for Russia's temporary weakening."

Administrator Appointed.
Attorney Edward T. Powell has been appointed administrator of the estate of the late George Edward Smith. The estate, which amounts to \$10,000 personal property, will be shared by the widow, residing at Kirkersville, and one son.—Columbus Sunday Dispatch.

Save The Extra Coal Or Gas You Use On Washday

Wash with Fels-Naptha and boiling water becomes unnecessary.

There is no need of a hot fire to keep water boiling all day when you can get even better results by using Fels-Naptha in water that's comfortable to your hands.

Washday used to burn a big hole in the coal bin. Try the Fels-Naptha way and you will quickly notice what a real saving it makes for you.

Because, Fels-Naptha not only saves heating expense, it saves time, it saves clothes, it saves you.

WANT TO EAT PIE AND ALL THE GOOD THINGS BESIDES?

Then Take Nerv-Worth, Says Thankful Marietta Traveling Man, and the Table Pleasures Will Be Yours.

The giver of the following remarkable signed statement is a highly esteemed resident of Marietta, O., who for 18 years has covered Ohio and West Virginia for a Cleveland house. He began testing Nerv-Worth while in Bluefield, W. Va., a short time ago. Here's what he says of results: "Salesmen on the road, having no regular eating places, have their troubles with indigestion, headache and nervousness. I have been trying out the famous Nerv-Worth, manufactured at Zanesville, Ohio. Seeing the testimonials of reliable people Nerv-Worth has so wonderfully helped I have been trying it out for two weeks for indigestion and headache. I must say I am a friend of Nerv-Worth. If you want to eat pie and all the good things go to Goodykoontz's Drug Store (the Bluefield agency) and purchase a bottle of Nerv-Worth for one dollar and the pleasure of eating good things is yours."

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

If Peevish, Feverish and Sick,
Give "California Syrup
of Figs."

Mother! Your child isn't naturally
 cross and peevish. See if tongue is
 coated; this is a sure sign its little
 stomach, liver and bowels need a
 cleansing at once.
 When listless, pale, feverish, full of
 cold, breath bad, throat sore, doesn't
 eat, sleep or act naturally, has
 stomach-ache, diarrhoea, remember,
 a gentle liver and bowel cleansing
 should always be the first treatment
 given.

Nothing equals "California Syrup
 of Figs" for children's ills; give a
 teaspoonful, and in a few hours all
 the foul waste, sour bile and ferment-
 ing food is cleared from the bowels,
 passes out of the system, and you
 have a well and playful child again.
 All children love this harmless, de-
 licious "fruit laxative," and it never
 fails to effect a good "inside"
 cleansing. Directions for babies, chil-
 dren of all ages and grown-ups are
 plainly on the bottle.

Keep it handy in your home. A lit-
 tle given today saves a sick child to-
 morrow, but get the genuine. Ask
 your druggists for a bottle of
 "California Syrup of Figs," then look
 and see that it is made by the "Cal-
 ifornia Fig Syrup Company."

**SEVENTY THOUSAND
ABOVE ITS QUOTA IS
LICKING'S ESTIMATE**

Chairman Walter C. Metz of the
 Liberty bond sale committee, reported
 today that the allotment in the
 sale of bonds for Licking county had
 been oversold Saturday evening at 4
 o'clock. At that hour the total sales
 were \$1,072,450, approximately \$70,-
 000 in excess of the quota asked for
 by the government, the Licking coun-
 ty quota being \$1,002,750.

The county districts quota was
 \$337,350 and only \$321,100 had been
 subscribed at 4 o'clock when the fig-
 ures were reported to Chairman
 Metz, leaving a shortage for the
 county of \$16,250, which may have
 been subscribed before midnight Sat-
 urday as many of the banks keep
 open until 9 p. m.

The city's quota was \$665,400 and
 at 4 o'clock \$751,350 worth of bonds
 had been subscribed for, exceeding
 the amount asked by \$85,950. This
 amount will also be increased when
 the final report is made as all the
 local institutions keep open Satur-
 day night and it is believed that
 quite a few bonds were subscribed
 for at that time. The subscription
 does not include that of the Ameri-
 can Bottle Company, amounting to
 \$50,000 which went through their
 Chicago office.

Chairman Metz is busy compiling
 and tabulating the figures and will
 give the final report just as soon as
 he hears from each district and bank-
 ing institution.

SOLDIERS' LETTERS

Editor of The Advocate:—I have
 been receiving The Advocate for
 some time through the courtesy of
 a Newark friend and I certainly do
 appreciate the favor. I am very glad
 to get the paper because it keeps me
 informed of what is going on in
 Newark. I don't feel so "lost" when
 I get the paper every day. I don't
 know of a fellow in this regiment
 that is from Ohio so it is a little
 lonely. Of course the fellows here
 are good fine fellows, the most of
 them, but I would feel more at home
 if there was some one here I knew
 from Ohio. The 35th is all volun-
 teers who enlisted after war was de-
 clared with the exception of a few
 corporals and Sergeants. This is
 practically a whole new regiment,
 but I know we can do as much as the
 next one. I am in the second bat-
 talion. We get up at 6, breakfast
 6:20 and start to drill at 7:30. Then
 we come in at 9:30 and rest till 10,
 then we drill till 11:30 and have
 dinner at 12. The next drill call is
 at 1 and recall from drill at 3. The
 rest of the day is ours. In the af-
 ternoon we have boxing and some-
 times football. Every Monday we go on a hike. We
 leave at 7 and get back about 12 or
 1 p. m. When we go on a hike we do
 not drill in the afternoon.

There are three posts on the bor-
 der up town and one farther out on
 a hill. The nights here are very
 cold, so cold we have to wear over-
 coats on guard. In the day time it
 is about as hot as ever. There is
 nothing but hills here. The roads
 are very good, the best roads I have
 ever seen. They are as solid as rock
 and the heavy rains we have here do
 not effect them. The rainy season is
 over now. It hasn't rained here for
 over a month.

The town here isn't large. There
 are about 3,000 people on this side
 of the line and about the same on
 the other side. There are two pic-
 ture shows here. Most of the people
 here are Mexicans and Spanish. The
 Mexicans don't think much of a sol-
 dier so we are not very well liked
 here. I will be glad when we get in
 a civilized part of the world again.
 All autos and baskets and packages
 are inspected before they are allowed
 to cross the line.

Every thing is going all right and
 I am pretty well used to the climate
 now. I remain yours truly, Elmer
 Christofferson, 35th Infantry Co. F,
 Nogales Ariz.

CHRISTIAN SCIENCE LECTURE

BY JOHN RANDALL DUNN C. S.

First Church of Christ, Scientist,
 of this city, gave a lecture on Chris-
 tian Science last night at Taylor
 Hall, Y. M. C. A. building. The lec-
 turer was introduced by Mr. Rich-
 ard L. Tannhill, who said:

Doubtless all who are here have
 come in search of truth. To make
 this searching most effective it might
 be well to remember that noted nat-
 uralist scientist, like Newton, Dar-
 win, Spencer, and others in various
 fields of research, have realized the
 need of keeping their thoughts
 cleared of theories and unproved
 hypotheses that they might even ap-
 proximate the truths they were
 searching for. The same rule holds,
 with no less force, in the search for
 spiritual or absolute truth. And in
 our study, or in our investigation of
 the revelation of truth to this age,
 known as Christian Science, the more
 we can keep our thought cleared of
 preconceived opinions, and of prej-
 udice, or prejudice, the more
 nearly we shall approach to a cor-
 rect understanding of this truth,
 and the more rapidly.

"It is the purpose of a lecture" of
 the kind you will hear this evening
 "to present the subject of Christian
 Science correctly." In order that this
 may be done the Mother Church, the
 First Church of Christ, Scientist, in
 Boston, Massachusetts, has establish-
 ed a Board of Lectureship. You
 will be addressed by a member of
 that Board, whom I now have the
 pleasure to introduce to you—Mr.
 John Randall Dunn of St. Louis,
 Missouri.

The hall was filled, every seat
 being occupied, and the audience was
 very attentive throughout the en-
 tire address.

Mr. Dunn said in part:

A few moments' consideration of
 the great subject of Christian Sci-
 ence, its origin, its promise, and its
 fruitage, should not fail to convince
 the most skeptical that the revela-
 tion of this truth to the world may
 well be denoted The Supreme
 Discovery of The Age.

Breaking of Greater Spiritual Light
 It should not seem unreasonable to
 anticipate that an age which has
 brought forth such material marvels
 should also witness the breaking of
 greater spiritual light. To this
 thought, however, the average man
 comes with more or less caution. He
 willingly supplants his grandfather's
 candle with a modern incandescent
 lamp, unblushingly prefers an auto-
 mobile to an ox-cart, and yet hesi-
 tates to accept the thought that he
 should expect advancement along the
 line of spiritual unfoldment as well
 as advancement in the realm materi-
 al. He probably tells you that the
 religion of his fathers is good enough
 for him, and on this point he will
 find no argument with a Christian
 Scientist, for the religion of the fathers
 is good enough for him if by the
 fathers he means the early Christian
 fathers. The religion of Jesus and
 the early Christians, the religion
 which was evidenced by the healing
 of the sick, the stilling of the tempest,
 and the feeding of the multitude, is
 indeed good enough for all mankind;
 in fact, it is the only power that is
 good enough for the aching heart of
 man. And it is to this selfsame re-
 ligion of Jesus that Christian Science,
 this great twentieth-century religious
 movement, turns the sick and weary
 of earth.

Christian Science is not a modern
 philosophy, not the "product of a
 fertile human brain." It is the revela-
 tion of the spiritual facts of being,
 the revelation of the truth about God
 and man taught by Jesus and the
 prophets, and it is all to be found in
 the Bible.

The Path Marked by Jesus
 Have you ever seen in the moun-
 tains a "blazed" trail? A large piece
 of bark is cleft from a tree, and this
 operation is repeated on other trees
 at frequent intervals throughout the
 length of the trail. No matter how
 the trees may grow, the "blaze" re-
 mains, and so the trail is marked out
 for generations to come. When the
 materialism of Jewish theology and Ro-
 man paganism, there appeared one
 whose mission was to point the way
 to spirituality, to deliverance, and
 healing, and he "blazed" a trail to
 the Father's house so plain, so simple,
 that a child could follow it. But in
 after centuries fast-growing weeds of
 ritual and human doctrines, of politi-
 cal power and ecclesiastical worldli-
 ness, obscured the trail, and mortals
 seemed content to follow the devious
 paths of creeds until in our time a
 woman-pilgrim came upon it and
 him his twelve disciples, he gave

them power against unclean spirits,
 to cast them out, and to heal all
 manner of sickness and all manner
 of disease.

When he had finished the reading
 the inmate caught at his hand
 "Send me one of those men!" he pleaded.
 But the doctors smiled, shook their
 heads, and murmured that it was a
 sad case.

Let each one of us who dares to
 name the name of Christianity
 solemnly ask himself this question:
 Am I trying to be one of those men?
 Had I been approached as was this
 visitor, could I have said to the un-
 fortunate one, "Why friend, I be-
 lieve in Christian healing! I am
 an trying to be one of Jesus' dis-
 ciples—one of those men—and the
 power that banish devils in the
 days of the Master can free you
 now!" If we are unable honestly to
 face the situation thus let us go
 forth resolved to sit at the feet of
 the Christ and meekly learn of that
 power the possession of which alone
 entitles us to the sacred name of
 Christian.

The Power Imparted by Jesus.
 What was the power which Jesus
 imparted first to the twelve and
 later to the seventy disciples? It
 could not have been a mysterious
 magnetic current flowing from the
 personality of Jesus to those about
 him, as some would have us be-
 lieve, for Jesus insisted that of
 himself he could do nothing, and
 that it was the Father dwelling in
 him that did the works. Again, in
 the well-known passage from the
 fourteenth chapter of John, he states
 that his mighty works shall be done
 by those who believe on him, or in
 other words, those who understand
 his great mission and the divine
 Principle thereof. Thus we see that
 the power given by Jesus to his fol-
 lowers was a spiritual understand-
 ing, just as a teacher in school gives
 his pupils power to solve problems
 in arithmetic when he shows them
 the rule and principle basing arith-
 metic. But apparently no definite
 rule was left by Jesus whereby this
 vital teaching was discernible. Here
 let us offer up psalms of thanksgiv-
 ing! In this wonderful volume, Sci-
 ence and Health, has been revealed
 that treasure which to the unen-
 lightened sense remained lost in the
 pages of the Bible for centuries.
 And today a Christian is without
 excuse who, when asked to heal the
 sick and cast out demons, turns his
 back and says, "I am not one of
 those men!"

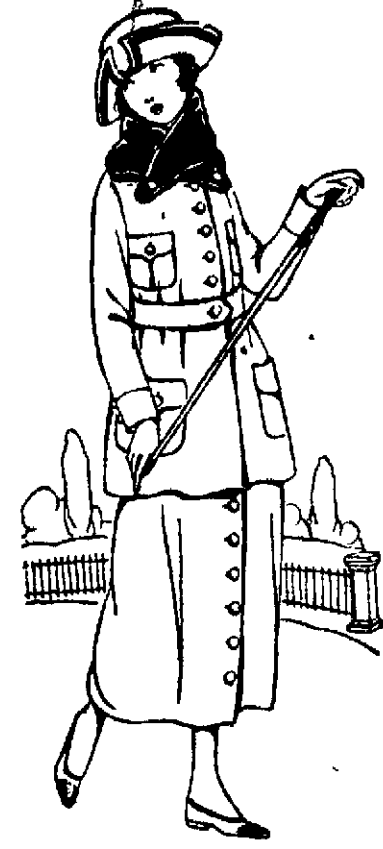

How Jesus Healed the Sick
 We are now ready to consider one
 of the most important paragraphs
 in Science and Health, for it may be
 said to contain the "pearl of great
 price" that tells us in the simplest
 of words how Jesus healed the sick.
 "Jesus beheld in Science the per-
 fect man—who appeared to him
 where sinning mortal man appears
 to mortals. In this perfect man the
 Saviour saw God's own likeness,
 and this correct view of man healed
 the sick. Thus Jesus taught that
 the kingdom of God is intact, un-
 versal, and that man is pure and
 holy" (Science and Health, p. 476).

This then must have been the un-
 derstanding which Jesus imparted
 to his disciples, which enabled them
 to duplicate his wonderful healing
 work. This is the understanding
 which today is enabling Christian
 Scientists to confront, undimmed,
 the appearance of disease and vice,
 and to rescue the unfortunate in
 bondage thereto.

Evil Unreal
 The following illustration may
 help to throw more light on the
 Christian Scientist's attitude toward
 sin and disease. Before studying
 Christian Science, and while a
 member of an orthodox church, I
 was asked by a friend to "use my
 religion" as he expressed it, in the
 effort to reclaim a brother seem-
 ingly enslaved by drink. I accepted
 the commission, and proceeded to "use
 my religion." I found my subject in
 a most repentant mood, and he
 agreed almost tearfully with my
 ringing condemnation of his evil
 ways, asked him if he did realize
 the depths to which he had fallen,
 how wicked he was, and how ter-
 rible was that evil power to which
 he had submitted. Yes, he
 realized it all, but evil had been
 made so real and so powerful to
 him that even the hope of divine
 deliverance, with which I finally en-
 deavored to inspire him, was of no
 avail, and he sank even deeper in
 the mire of sin.

Let us now consider another pic-
 ture. I have to confess that I
 brought to one endeavoring to be a
 scientific Christian, or a Christian
 Scientist. The Scientist sees before
 him no bad man, no perpetrator of
 sin, but a victim of sin. He sees
 behind the fleshly appearance the
 man of God's creating, who is

Suits and Coats Are Not Necessarily Expensive In Order To Be Stylish

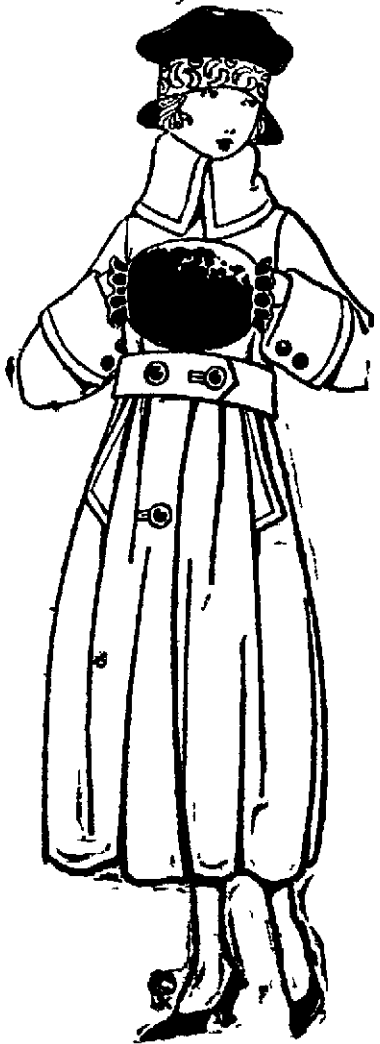

As will be seen from the many attractive models on display here at popular prices. If you have been wondering what kind of a garment you can purchase at from \$15.00 to \$25.00, we suggest that you come in this week and see what fine suits and coats we are offering at low prices. It's the last week in October, time you should be making your selections.

ATTRACTIVE SUITS \$20.00 AND \$25.00

Are shown in pretty dark colors suitable for winter wear. You will find gabardine, serge, cheviot and oxford mixtures. Stylish models in military effects, plain tailored models, some showing button trimmings, others a touch of fur or velvet across the collar.

WARM WINTER COATS \$15.00, \$20.00 AND \$22.00.

You'll be surprised what splendid coats are shown at these low prices, showing all the style features of the higher-priced garments. Wool plushes, zibelines, fancy novelties, are here in many stylish models, showing large, fancy collars, novel belts, patch pockets, and large fancy buttons.

IT'S TIME TO SELECT FURS

Whether for wear now or to use as holiday gifts, it is best to select them now. All the finest furs of the season are shown first, and we advise everybody interested in fine fur pieces to select them now. The choice sets and separate pieces in grey, red or black fox, mink, black lynx, marten, beaver and all the fine furs are all on display and soon many of them will be gone.

SPLENDID MUFFS AND SCARFS \$10.00, \$12.50 AND \$15.00 EACH

Pretty styles are shown at these popular prices in both muffs and scarfs in brown opossum, blended mink, raccoon, squirrel, Kolinsky, nutria, black wolf, seal, red fox, muckrat, lynx cat.

CHILDREN'S FURS FOR CHRISTMAS GIFTS

Should be selected now. As the holiday season draws nearer, these pretty little sets will be picked over, so you may be unable to get what you want. Many stylish sets of muff and collar are shown in white fox, white, red and brown money and striped money at... \$2.95, \$5.00 and \$7.50 set

EXPLAIN FEATURES OF INSURANCE TO OHIO DRAFT MEN

(ASSOCIATED PRESS TELEGRAM)

Camp Sherman, Chillicothe, Oct. 29.—Now that the Ohio selective draft army has taken its second big strides in preparing to whip the Germans by subscribing more than \$2,000,000 to the Liberty Loan, attention next is turned to war risk insurance which will provide for the folks back home if something should happen "over there."

Lieut. Col. Lawrence D. Cabell, who is to have control of the insurance work, is marshalling his forces to prepare for a drive that it is hoped will remove from minds of the selects all worry for the loved ones at home. As in other military work, the campaign will start with the highest officers and go on down the line until each company commander will get instructions and blank forms for enrolling his men.

Here is Colonel Cabell's crystallization of the law:

Provides for the soldier's wife and baby while he is at the front.

If disabled, it provides for himself and baby.

If disabled beyond recovery, it equips him with new arms, legs, etc. and teaches him a new trade.

It killed, it takes care of his wife, baby and widowed mother.

It offers \$10,000 life insurance (without medical examination) so cheap that every private can afford it.

It appropriates \$176,000,000 for this purpose.

It replaces the pension system in all future cases and removes the care of the injured and their dependents from politics.

It is explained that the first part of the law provides for the compulsory allotment of at least \$15 and not more than half of each married man's monthly pay to his wife or child and the voluntary allotment of an additional sum from his pay for any other relatives. To these sums is added a government monthly allowance to the beneficiaries on a basis of "fifty-fifty or better" not to exceed more than \$50 a month.

The second part of the law specifies the amount to be paid to the disabled soldier. It ranges from \$30 a month to himself if he has no wife and three or more children.

There also is an allowance of \$100 for burial expenses and the section provides further for medical, surgical and hospital services free.

The third part of the law offers the soldier insurance from \$500 to \$10,000 at rates far below those of private insurance companies. A man 21 years old can buy this war insurance for 65 cents a thousand dollars for insurance.

A campaign similar to that waged in the interest of the Liberty bonds, when every man in Camp heard lectures and talks and became thoroughly acquainted with the campaign purposes before participating, is to be conducted in the next few weeks at Camp Sherman with a view of having each and every soldier insured.

The announcement yesterday that a rifle range has been selected and will be ready for first target practice in two weeks has created a great deal of interest, for the selects are now to a place in their training where they want more real "action."

They already are planning painting the names of "Wilhelm," "von Hindenburg," and some other German leaders on the targets at which they are going to bang away 16 hours a week very soon. National colors have been received by several regiments and as soon as the regi-

mental colors come, exercises will be held as the banners the boys are to follow in France are flaunted in the breeze for the first time.

Another batch of discharges was granted at division headquarters to men found physically unfit for military work. Those who are to return home are: 322d field artillery: Edward Seik, George Seifert, Chas. H. Hiram, C. Eek, Paul W. Blue, Frederick Evans, Ernest W. Pence; 323d field artillery, William C. Herman; 331st infantry, Nick Kostakis, Charles Driesbach, Anton Spirakus, Patrick J. Gallagher, Jacob Attuliah; 8th training battalion, Joe Novak; 308th division train, Chester Rice; 330th infantry, Guy Marrano, Wm. J. Hughes; 33d infantry, John Smallwood, Jim Dark; 324th machine gun battalion, Charles Robert Harry; 329th infantry, Charles M. Hathaway; 308th engineers, John Bostater, Edgar R. Vensel; 6th training battalion, John Zlotnikoff; 1st training battalion, Charles Wilson, Edward Wilson.

3 BEAM AVIATORS
KILLED THIS SEASON
MANAGER WRITES

The following letter to Secretary H. D. Hale of the fair board, from B. Ward Beam, manager of the Beam Aviation School at Celina, relates to the young aviator, Fred Hellin, who gave an exhibition at the Licking county fair, and who was killed several weeks ago in a flight from the aviation field in company with Lieut. J. C. Dismall of the Canadian army, and who accompanied Mr. Hellin in his flight from Celina to the Licking county fair grounds last month, the latter being badly injured.

"We appreciate very much the manner in which you expressed your sympathy and that of the members of the Licking County Agricultural Society in the untimely death of Aviator Fred Hellin. The writer, mailed your wire to his mother at San Francisco, and no doubt it did a great deal in soothing the sorrows of the widowed mother.

"Mr. Hellin, while a splendid instructor at our school, made his first exhibition flight at Newark, and I intended putting him on the road next season with an exhibition outfit. He frequently spoke of your fair and how he enjoyed his stay in your city and the fine treatment accorded him by yourself and the officials. He spoke of his leaving Friday afternoon before starting on his overland flight for home, and said somehow or other it was like parting with old friends and he hoped some day to return and give an exhibition of fancy flying with a machine built for that purpose.

"I have just received word that one of our exhibition flyers, C. E. Williams, was killed in Mobile, Ala., while giving an exhibition flight. His death makes the third this season for our company. I wish to thank both you and the board for the courteous treatment which we received while in your beautiful city, and for the hospitality accorded myself and boys. I shall ever remember it, and hope to meet you all again in the near future."

ASTHMA SUFFERERS
I will send you a \$1.00 bottle of my Guaranteed Remedy for Asthma, on trial. Send no money. Pay after taking. If satisfied, Remedy gives quick relief. Has cured many after everything else failed. Mention nearest express office. Address: GEORGE D. HOOVER, Mfg. Pharmacist, Dept. 250, Des Moines, Iowa.

HUNTER AND SNYDER ARE NEW MEMBERS OF CO. FAIR BOARD

An election for four directors of the Licking County Agricultural society was held Saturday, the terms of S. S. Cooperrider, M. C. Harter, Fred H. Stevens and J. W. Hankinson having expired. There were seven candidates in the field, Messrs. Cooperrider, Harter, James Hunter of Franklin township, D. D. Snyder of Etna township, Alonzo A. McDowell of Mary Ann township, William Vance of Washington township and W. B. Parker of Newton township.

The polls were open from 9 a. m. until 4 p. m., Messrs. O. G. Warrington, W. J. Tharp and J. C. Morrison, members of the board, serving as judges, and Harry D. Hale, secretary of the board, clerk. There are 750 members of the society, each entitled to a vote, but owing to the inclement weather only 250 ballots were cast, the vote standing as follows:

S. S. Cooperrider..... 202
M. C. Harter..... 190
James Hunter..... 155
D. D. Snyder..... 125
Alonzo A. McDowell..... 98
William Vance..... 95
W. B. Parker..... 92

Messrs. Cooperrider and Harter were elected to succeed themselves. Both have given splendid service on the board as a result of which they received the splendid support accorded them. James Hunter and D. D. Snyder, the other newly elected members, are well known progressive farmers and will be a valuable acquisition to the society. Mr. Hunter has always taken an active interest in the Licking county fair and being a young man versed in agriculture and horticulture, will prove his worth in giving his energies to assist in building up the annual county exhibition, so that Licking county may take her place among the leading fairs of the state.

Mr. Snyder lately completed serving as a member of the state board of agriculture. That experience will be valuable to the local board and will assist in many ways in improving the plans which are now under way to make next year's fair even better than the one held last month, which all patrons admit was one of the best held in recent years. The new directors take office Jan. 1, 1918.

The two retiring directors, Messrs. J. W. Hankinson and Fred H. Stevens, served a number of years, each in several departments, and always rendered faithful service. Both were painstaking and hard working officials and gave much of their time to the duties which were required of them.

Hon. James J. Hill, president of the board, who was present at Saturday's election, stated that he would call a special meeting in the very near future, to further promote the plans for next year's fair, the board intending to make it one of the banner fairs of the state.

SLOW TO CRITICIZE IS CARDINAL'S PLEA TO LOYAL CITIZENS

Baltimore, Oct. 28.—"The paramount duty of American citizens in the present crisis is a hearty and loyal obedience to the constituted authorities," declared Cardinal Gibbons in a sermon on "Loyalty to Country" which he delivered in the cathedral here today.

"Be slow to criticize," the Cardinal continued. "Remember that you view the situation from one angle; your rulers contemplate it from various angles. They have lights and sources of information that are closed to you. Your judgment of the administration and your criticism of their official acts should be always subordinated to a generous and wholehearted submission to their rulings. It is theirs to command; it is yours to obey."

"And in manifesting your loyalty to your country, you will be pursuing a sacred and honorable course, and you will be following the invariable traditions of your forefathers from the foundation of the Republic."

"I thank God that we live in a country where liberty is granted without license and authority is exercised without despotism, where the government holds over us the aegis of its protection without interfering with the God-given rights of conscience."

"The United States has succeeded in solving the difficult problem of reconciling legitimate authority with individual freedom. We have no union between Church and State. But this does not imply any antagonism between the two powers. Church and State amicably move in parallel lines, helping one another in their respective field of labor."

"The question is often asked: Will the Republic endure? I have a firm and an abiding faith in the perpetuity of the nation. She has successfully weathered many a tumultuous tempest in the past, and with God's help, she will triumphantly ride over the storms that now assail her."

"But if our country with her glorious institutions is to survive, her survival must rest on a stronger basis than on the genius of our statesmen, the wisdom of our laws, and the patriotism of our people. If she is to endure, she must stand on the eternal principles of truth and justice and righteousness. She must rest on a devout recognition of an over-ruling Providence who has created all things by His power, governs all things by His wisdom, whose guiding Hand directs the affairs of nations and of men without whom not even a bird can fall to the ground. Our hope for the future welfare of the country must rest on downright honesty in our dealings with other nations."

ATHERTON GIVES SATURDAY SHOW FOR CHILDREN

All kiddies of the city between the ages of 6 and 15 years, are invited to a free matinee, given Saturday morning, when Marguerite Clark, favorite of all children, will be seen in a pretty playlet.

The invitation is extended by Gus Atherton, proprietor of the news and cigar store in the city hall. Mr. Atherton stated today that after he invited the kiddies from the children's home to be his guests at the matinee Saturday, a number of children passing his place asked why he didn't give a show for them.

Mr. Atherton, who has always been a friend of the youngsters, has leased the entire house Saturday morning and arranged with Manager George M. Penberg for a fine picture. He stated today that he wanted the kiddies to have a good time and expects to see about 1,500 of them present. All kids are invited. Not a grown up will be admitted. Only kids between 6 and 15 years. Remember the hour, 9:30.
